Cosmograph Daytona
Oyster, 40 mm, white gold and diamonds

This Oyster Perpetual Cosmograph Daytona in 18 ct white gold, with a white and black mother-of-pearl, diamond-set dial and an Oysterflex bracelet, features a diamond-set bezel.
Highly resistant and durable

The 18 ct gold versions of the Cosmograph Daytona with a Cerachrom bezel are available with an Oysterflex bracelet. Developed by Rolex and patented, it singularly combines the robustness of a metal bracelet with the comfort of an elastomer bracelet.

It is made up of two flexible curved metal blades – one in each bracelet section – overmoulded with high-performance black elastomer. For optimum

comfort, the Oysterflex bracelet is equipped with cushions on its inner sides and an Oysterlock safety clasp to prevent accidental opening. Its length may be adjusted via the ingenious Rolex Glidelock extension system.
Commitment to excellence

By operating its own exclusive foundry, Rolex has the unrivalled ability to cast the highest quality 18 ct gold alloys. According to the proportion of silver, copper, platinum or palladium added, different types of 18 ct gold are obtained: yellow, pink or white.

They are made with only the purest metals and meticulously inspected in an in-house laboratory with state-of-the-art equipment, before the gold is

formed and shaped with the same painstaking attention to quality. Rolex's commitment to excellence begins at the source.

A unique effect

The contrasting dial is made from natural mother-of-pearl and graced with eight diamonds and three Chromalight hour markers. The strength of the contrast, the intensity of the colours and the depth of the reflections are the result of a particularly stringent material selection process. Both varieties of mother-of-pearl are handled with the greatest care by the brand's artisans.

The dial allows drivers to accurately map out their track times and tactics without fail.

Adorning a legendary chronograph

The timepiece incorporates a bezel adorned with 36 brilliant-cut diamonds.

This now legendary chronograph is the instrument of choice for measuring time intervals and determining average speeds. On this gem-set version, the emblematic tachymetric scale is replaced with diamonds.

Model Case

Type
Oyster, 40 mm, white gold and diamonds

Diameter
40 mm

Material
White gold

Bezel
Set with diamonds

Oyster Architecture
Monobloc middle case, screw-down case back and winding crown

Winding Crown
Screw-down, Triplock triple waterproofness system

Crystal
Scratch-resistant sapphire

Water Resistance
Waterproof to 100 metres / 330 feet

Movement

Type
Perpetual, mechanical chronograph, self-winding

Calibre
4131, manufacture Rolex

Precision
-2/+2 sec/day, after casing

Oscillator
Paramagnetic blue Parachrom hairspring. High-performance Paraflex shock absorbers

Winding

Bidirectional self-winding via Perpetual rotor

Power reserve

Approximately 72 hours

Functions

Centre hour and minute hands, small seconds hand at 6 o'clock. Chronograph via centre seconds hand, 30-minute counter at 3 o'clock and 12-hour counter at 9 o'clock. Stop seconds for exact time setting

Bracelet

Type

Oysterflex

Bracelet Material

Flexible metal blades overmoulded with high-performance elastomer

Clasp

Folding Oysterlock safety clasp with Rolex Glidelock extension system

Dial

Type

White and black mother-of-pearl set with diamonds

Details

Highly legible Chromalight display with long-lasting blue luminescence

Certification

Type

Superlative Chronometer (COSC + Rolex certification after casing)
